

Primary Care:

Your primary care provider understands your health care needs best. When experiencing challenges with mental health or addictions, make an appointment with your primary care provider to learn more about treatment options and local supports/resources available to you.

Additional support services are also available for rostered patients at Twin Bridges Nurse Practitioner-Led Clinic, Rapids Family Health Team, Central Lambton Family Health Team, North Lambton Community Health Centre, and Grand Bend Community Health Centre.

Mental health/addictions services are also available at community health centres in Aamjiwnaang, Walpole Island, and Kettle & Stony Point.
